

Sickness Policy

Dear Parents:

When children are unwell they should be kept at home. If your children have had a stomach upset or other sickness, it is important that you allow a period of at least 48 hours after the sickness has finished, before sending them back for lessons. This is for the betterment of your children, and such action will help to prevent the infection spreading unnecessarily to others in the centre.

If you're not sure on whether your children should stay home, ask yourself:

Is my children well enough to participate in lesson activities?	If not, stay at home
Do my children have a condition that could be passed on to others?	If so, stay at home

Please kept your children home if they have one or more of these conditions:

Frequent cough and cold	Running nose	Vomiting	Diarrhoea
Raised temperature (>37.5 °C)	Skin rashes	Headache	Any other infectious conditions
Chickenpox [Children must be kept off from lessons until all their chickenpox spots have crusted over.]			

If your child arrives at the centre and they develop any of the above noted symptoms, they will be rejected from entering the classroom.

In all cases of your children being unwell and unable to come to the centre, please make a call to the centre or send a whatsapp message before each lesson. Please kindly provide the following information in your message:

- Your children's name
- Class he/ she is attending
- Reason for absence
- Your relationship with the children
- Your phone contact

Thank you in advance for your understanding and assistance in keeping a healthy learning environment for all of us.

Sincerely,
Wise Development Centre
